

1842-0024

REMARKS

Consideration of the present application as amended is requested. The first paragraph of the specification has been amended to correct an obvious typographical error in the identification of one of the provisional applications from which the parent to the present application sprang. This amendment also adds new claims 65-79 to claims 33-64 that had been previously added when this continuation application was filed. It is believed that all of the limitations set forth in these new claims are supported by this specification and that no new matter has been introduced.

Respectfully submitted,

Michael D. Beck
